Key Instant Recall Facts

Nursery – Autumn 1

I can recite the number names to 5.
I can touch count to 3.

By the end of this term, children should be able to **say** the number names to 5. The aim is for them to recall these numbers **instantly**.

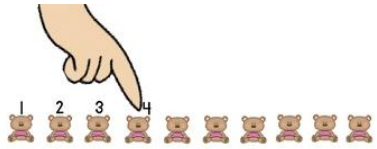

Children should say the following number names although they may not say them in order yet:

0 1 2

3 4 5

Touch counting

Children will sometimes count objects more than once or miss an object out that needs to be counted. Encourage your child to line up objects and touch each one as they count saying one number per object. This will also help to avoid children counting more quickly than they touch the objects which again shows they have not grasped one-to-one correspondence.

Take your finger, touch the object and count. Keep your finger on the object until you say the number. Touch and count each object you see.

Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey?
